Introduction

The Mermaid Medical Group vision:

“At Mermaid Medical, we want to help save and improve patient lives by engaging in trustworthy partnerships with healthcare professionals. We pursue this through continuous development and global distribution of secure and effective interventional products.”

The Mermaid Medical Group mission:

“At Mermaid Medical, the well-being of patients is our focus and greatest concern. That is why we work in close collaboration with partners to provide the safest and most effective solutions for interventional procedures. By always working closely with healthcare professionals, we develop solutions to optimize products and introduce them to the market – all in order to aid in effective patient treatment.”

The Mermaid Medical Group values:

***We Trust** that the things we do and the decisions we make are always for the improvements of the patients’ quality of life, the well-being of our colleagues, and the betterment of the company.*

***We Are Proud** of the progress that we make together to ensure that as people,*

We Are One.

Legal Compliance

Our suppliers and business partners must comply with all applicable national and international laws and industry standards. Mermaid Medical Group monitor this continuously by performing external audits at important suppliers and by evaluating relevant suppliers and business partners based on input from questionnaires, through communication and market feedback.

Mermaid Medical Group is ISO 13485, MDSAP, Canadian MDR SOR/98-282, and FDA registered as well and work closely together with the industry and authorities in order to reach best practice of medical devices and therefore we continuously update our Quality Management System and technical documentation.

Environmental

It is our goal that our products and services are designed, developed, manufactured, storage, sold and distributed in such a way that our employees and environment are protected the best way possible throughout the lifecycle of our products.

We will continuously conduct activities to ensure that we will always comply with applicable

national and international laws and, where practicable and appropriate economic, impose even more stringent requirements than the legislation itself.

We collaborate with local and public authorities so that our working conditions and working environment are in accordance with applicable requirements and where necessary to ensure that all relevant environmental information disclosed to those authorities.

We will create a safe, comfortable and healthy working environment for our employees, through recurring assessments of our jobs and prevention of unilateral repetitive work.

We continuously strive to find suppliers and business partners who, wherever possible, have environmentally certification according to ISO 14001 and ISO 18001 or who have an Environmental Policy integrated in their Quality Management System.

Personal Data

We support the fundamental rights to privacy for all individuals in compliance with national and international “General Data Protection Regulation” (GDPR) EU 2016/679.

We will at any point in time secure that we:
