

Ultra-Pro e™ Disposable Replacement Kits

The Ultra-Pro e™ is designed with simplicity in mind. It features an open-channel design with infinite angle capabilities, ensuring accurate in-plane positioning during procedures where access is difficult.

Features:

- Achieve faster, more accurate needle placement
- Accurate in-plane positioning with infinite angle options
- Compatible with all existing Ultra-Pro style brackets, assuring greater flexibility for puncture procedures.

The open channel design allows users an efficient needle release for viewing anatomy in both the short and long axis.
